Being a part of Pluggy's Power Patrol is all about being aware of your surroundings and practicing electric safety every day! To officially join the team, go through your house and complete this checklist. Ask your parents to help you with it!

Pluggy's Safety Checklist

Always remember to use caution when you're near electricity! Ask an adult to help you complete the inspection below for your home. If you find any hazards, check "Needs Work," and ask an adult to fix them.

	True	Needs Work
1. Electric outlets are not overloaded.		
2. Electric cords do not run under rugs or furniture legs.		
3. No electric cords are worn or frayed.		
4. Electric appliances are kept away from water.		
5. There is a fire extinguisher in the house.		
6. Electric heaters are far away from flammable objects.		
7. Power tools are stored in clean dry areas.		
8. All smoke detectors are properly working.		
9. There are safety plug covers on outlets that are not in use.		
10. There are no trees near the house that interfere with power lines.
