Thank you for your interest in the GenerLink generator interconnection device. In order to provide you with the proper model, we need to know the following information.

Generator Manufacturer: _____
Model Number: _____
Rated Capacity (watts): _____
Generator Connection – see following graphic.

Application Notes: The connected generator cannot have a GFCI, and it must have a floating neutral. Also, do not stack the GenerLink with another meter socket device. This can lead to bad connections and electrical problems.

Please circle the GenerLock Cord connection to the right which matches your generator.
